

DTF Tax-Free Income Inc.

(NYSE: DTF)

Fund Overview

The Fund

DTF Tax-Free Income, Inc. (the "Fund") was organized in November, 1991 and is a diversified, closed-end management investment company.

Investment Objective

The Fund's investment objective is current income exempt from regular federal income tax consistent with preservation of capital.

Portfolio Contents

The Fund seeks to achieve its investment objective by investing primarily (at least 80% of its total assets) in a diversified portfolio of investment-grade tax-exempt obligations. Effective on May 31, 2007, the Fund may not invest more than 25% of its total assets (taken at market value at the time of each investment) in the securities of issuers in a single industry; provided that, for purposes of this restriction, tax exempt securities of issuers that are states, municipalities or their political subdivisions are not considered to be the securities of issuers in any single industry.

Leverage

The use of leverage enables the Fund to borrow at short-term rates and invest at long-term rates. The Fund's charter authorizes the issuance of Remarketed Preferred Stock ("RP"). Accordingly, the Fund issued 1,300 shares of RP on February 4, 1992. The RP has a liquidation value of \$50,000 per share plus any accumulated but unpaid dividends. The use of leverage involves certain risks for common shareholders, including higher volatility of both the net asset value and market value of the common stock.

There is no assurance that the Fund will achieve its investment objectives. Past performance is not indicative of future results.

Shares of closed-end investment companies such as the Fund trade in the market above, at, and below net asset value. This characteristic is a risk separate and distinct from the risk that the Fund's net asset value could decline. The Fund is not able to predict whether its shares will trade above, below or at net asset value in the future.

This information does not represent an offer, or the solicitation of an offer, to buy or sell securities of the Fund. For additional information please see the Fund's most recent annual or semi-annual report.
